

EASy Crew – Support info

EASy Crew is an application designed for pilots, flight dispatchers and anyone involved in Flight Operations. Any question or comment, feel free to send me an email hgiraud@flight-office.com

CAUTION:

This app does not comply with any official regulations.

So it may not suit your needs, especially for Commercial Air Transport operators (CAT).

With this app you can list and monitor the expiration date of all your crew documents:

Type Ratings, medical checks, visas, training documents such as RVSM, NAT-HLA, CRM, DANGEROUS GOODS and so on...

Warnings in place will turn the information amber to alert the approaching expiration date, in order you could anticipate as needed.

Once expired, the information will then turn red.
